🎓 EDUCATION

XXXX University, 985 project 2021 – Present
Bachelor in Computational Mathematics

♡ HONORS AND AWARDS

1st Prize, Award on Scholarship Dec. 2021
Three Good Student Model Jun. 2022
Outstanding Student Leader Model Sept. 2023

👤 EXPERIENCE

SSCI Inves XXXXXXXXXXXX tion Oct. 2023 – Jan. 2024
G, Illusionna, C, et al. IF: 10.4

Brief introduction: The Chinese government has issued a policy to deleverage, but it has always used some high-leverage firms to cheat through accounting.

- Python spider collects website posts and organizes them into JSON format
- Perform Winsorize processing on outliers at 1% and 99% levels
- Multiple linear regression is used as the baseline
- Significance test and Cross-sectional analysis

SCI Re XXXXXXXXXXXX formers Feb. 2024 – Jul. 2024
Core Member IF: 2.7

Brief introduction: It is always an intractable problem to control the addition water amount in sintering process.

- Configure pytorch and tensorflow dependencies
- Debug training debug prediction
- Typesetting paper by \LaTeX

Projects Email Attachments Download & Local Transfer Jan. 2024 – Jun. 2024
Leader & Individual Publish: <https://www.senu.email> & <https://github.com/Illusionna/LocalTransfer>

Brief introduction: Two derivative TCP/IP tools of the Jarvis Engineering by @Illusionna.

- The minimalist terminal interface and minimum local disk space
- The fastest response
- Widely prevalent among most people
- UI interface is friendly and aesthetic
- TLS/SSL HTTPS transport layer security
- Web Front-End real-time synchronization

⚙️ COMPETITIONS

- MCM/ICM, Meritorious Winner Mar. 2024
- CRA, National Third Prize Apr. 2024
- ACM, Successful Registration
